

RTU VIALS

We distribute all the range of glass products from our Chinese partner.

Nest box packaging

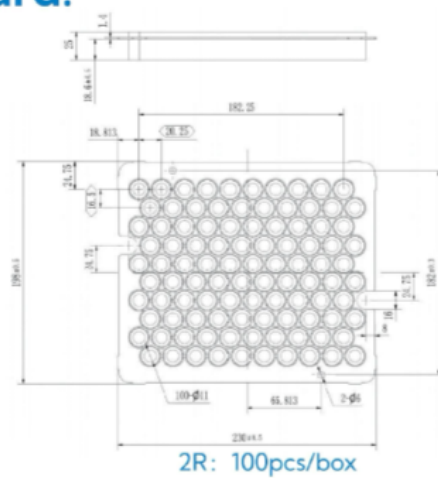

Packing method

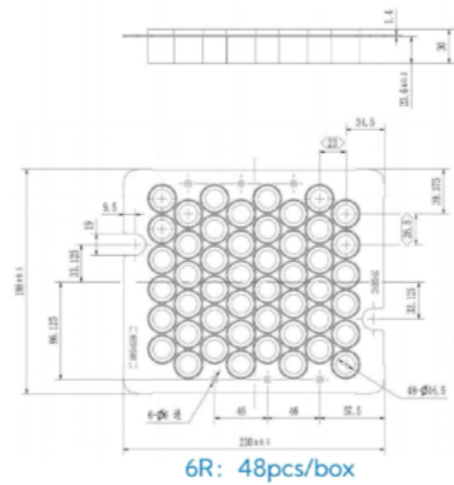

ETO Sterilization label

Carton size:785*245*535MM

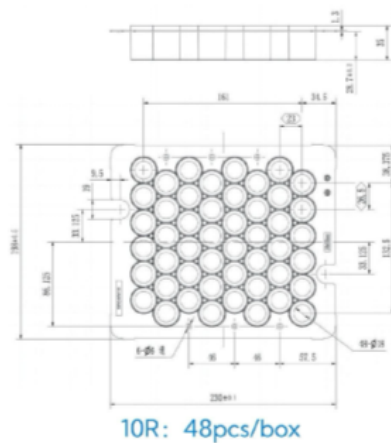

Nest board:

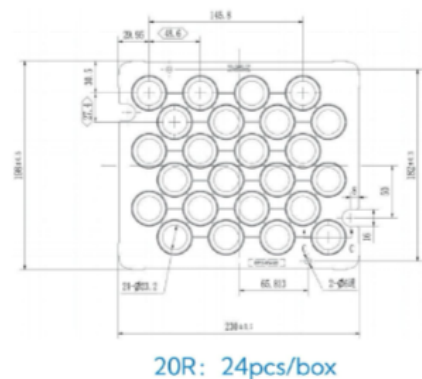

2R: 100pcs/box

6R: 48pcs/box

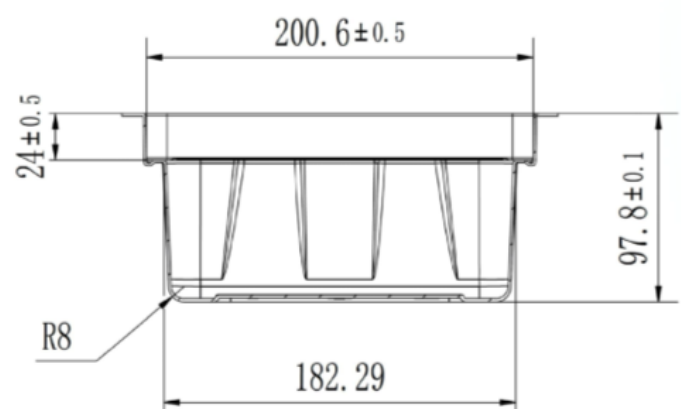

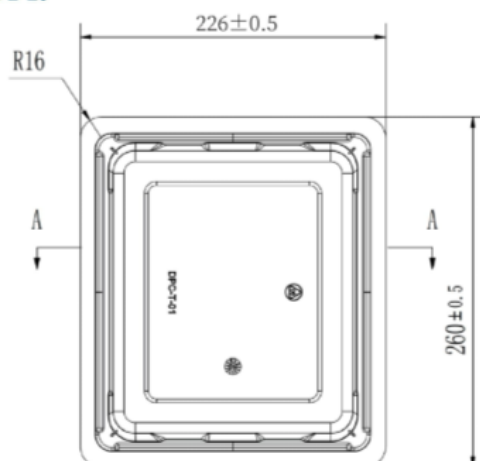

10R: 48pcs/box

20R: 24pcs/box

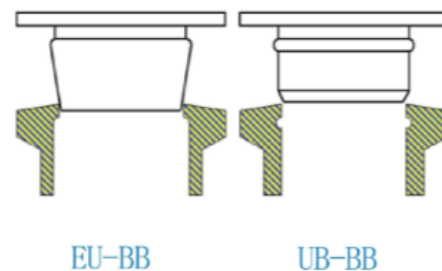

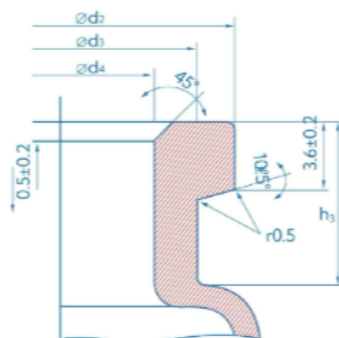

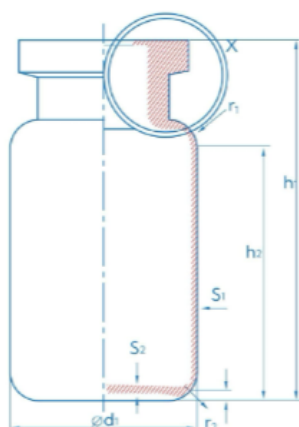

Nest Box:

Descriptions

Components	Material Description	Regulations and Standards Compliance
Glass injection vials	Borosilicate glass	ISO 8362-1, YBB00292005-2-2015
Nest plates	Polypropylene (PP)	ISO 10993 USP
Nest boxes	High-impact polystyrene (HIPS)	EN71-3:2013+A1:2014+ A2:2017 +A3:2018 + A4:2019 21 CFR 177.1640
Tyvek® cover	TyvekR: PE-HD fiber	ISO 10993-5
Tyvek® seal	TyvekR: PE-HD fiber and hot melt adhesive	ISO 10993-5
Sterilized bags	Double bag: low-density polyethylene (LDPE) and TyvekR	ISO10993-5
Sterilization	ETO	ISO17665-1 GB 18279.1-2015 GB/T 18279.2-2015

Product Specifications

ISO 8362-1: 2009

specifications	Brimful capacity (ml)	a	d ₁	d ₂	d ₃ (Max)	d ₄	h ₁	h ₂ (Min)	h ₃	r ₁ [≈]	r ₂ [≈]	S ₁	S ₂ (Min)	t (Max)	weight (g) ≈

Ready to use vials (Sterilized)

Product Advantages:

Reduce investment:

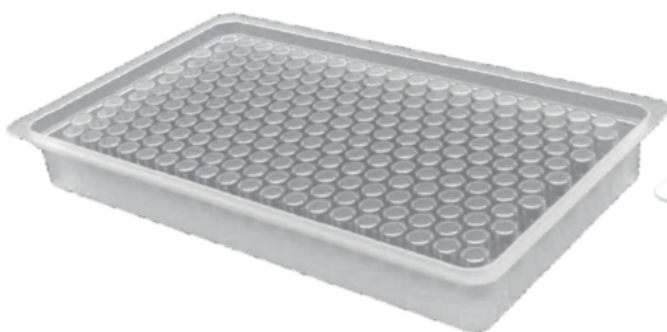

- Equipmnt (cleaning, water for injection system, tunnel dryer)
- Labor
- Verification and maintenance
- Space (clean room)

Improve quality:

- No glass-to-glass contact during transport
- Reduce particles
- High-quality appearance
- Enhanced mechanical properties
- Reduce operation steps: Lower risk of downtime / failure

Product applications:

- New drug development
- High value-added biological products
- To eliminate packaging interference
- Small batch production
